User Story

User Story:

As a Pet Owner:

I want a pet social media app that displays my pet's special moments

So that I can view, search, interact(like) and delete pet posts to be shared with other pet owners.

Acceptance Criteria

Acceptance Criteria

Given a MERN Stack App

When I navigate to the main page,

    Then I can login or create new user.

When I log in,

    Then I can post new image and caption.

When I view post,

    Then I can like, comment or delete the post.

When I land on page and log in

    Then I can view, like, comment other posts.
